Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a cookware, classified in class 99, subclass 341.
- II. Claims 5-9, drawn to a method of cooking, classified in class 426, subclass 523.

The inventions are distinct, each from the other because:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus of Group I as claimed can be used to practice another and materially different process, e.g., for use in boiling water, or for use in sterilizing feeding bottles and nipples with steam.

Because these invention are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as shown by their different classification, restriction purposes as indicted is proper.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George C. Yeung whose telephone number is (571) 272-1412. The examiner can normally be reached on Monday-Friday from 10:30 AM to 7:00 PM.
